

X-Ray Service Providers

A specific set of basic X-ray procedures are available through the program when ordered by your Access to Care doctor. You may have to go to a location other than your doctor's office for these procedures. When you call for an appointment or go for X-ray services, you should identify yourself as an Access to Care patient. You must show your Access to Care identification card and the order from your doctor. You will be required to pay \$5 for each ordered procedure.

If you receive services at any facility other than the following sites, you will be responsible for the entire cost of these services. X-ray services are available only at the following locations.
