

Your Medication Guide

With Access to Care (ATC), you can get your prescriptions filled at most pharmacies. You will need the written prescription from your assigned ATC doctor and your current ATC ID card. ATC allows you to fill a 30-day supply of your medications. That may cover a one-time prescription such as an antibiotic, OR an entire 30-day supply of medication if it is something you take every day.

All medications in this guide have been approved by the Food & Drug Administration and were chosen by a committee of doctors and pharmacists. The ATC Medication Guide may be subject to change without notice. Due to space limitations, all covered medications may not be listed in this Guide. For further information or questions please call 708-531-0680.

ATC has a mandatory generic medication policy. ATC will only pay for a brand name medication if a generic equivalent is not available, OR if your assigned doctor says there is a medical reason you are unable to take a generic medication.

Tier 1: Generic Medications

(listed in plain type in the Guide)

Generic medications are the least expensive. You will be charged a \$15 co-payment for generic medications.

All diabetic medications and testing supplies will have a \$15 co-payment.

Tier 2: Preferred Brand Name Medications

(listed in bold type in the Guide)

Your ATC physician may require you to take a preferred brand name medication instead of a generic medication. You will be charged a \$30 co-payment for preferred brand name medications.

Tier 3: Non-Preferred Brand Name Medications

(not listed in the Guide)

Your ATC physician may require you to take a non-preferred brand name medication. You will be charged a \$40 co-payment for non-preferred brand name medications.

Share this Guide with your ATC doctor to select cost-effective medications needed to treat your condition and maintain your health. *Non-preferred brand name medications are NOT listed in this Guide.*

MORE WAYS TO SAVE MONEY ON YOUR MEDICATIONS

The Rx Outreach and Walmart/Sam's Club pharmacy programs are cost-saving options outside of the ATC pharmacy benefit with generic medications as low as \$4, a 60% savings! If you use one of these cost-saving programs, DO NOT use your ATC card. Everyone is entitled to these cost-savings.

ADDICTION/ SUBSTANCE ABUSE	PNEUMOVAX 23*	nifedipine ER	memantine
buprenorphine	PREVNAR 13*	nifedipine ER osmotic	NAMZARIC
buprenorphine/naloxone	CARDIOVASCULAR/ HEART DISEASE: ANTICOAGULANTS	olmesartan	CENTRAL NERVOUS SYSTEM: ANTIPSYCHOTICS
