

# Member Survey about COVID (July/August 2021)

In January, we asked all Access to Care members how COVID-19 had affected them and their families. Most members told us about challenges with jobs; paying for rent, food, household items and bills; and worrying about getting COVID-19.

Now, 6-7 months later, the vaccine is available, and the State of Illinois has opened up. We want to know if you are still facing these challenges or maybe different challenges. If so, we want to help. We also want to let community leaders what our members are telling us, in hopes of making some positive changes.

**Please share your experiences as soon as possible. We have included a return envelope for your convenience.**
