

Your Medication Guide

With Access to Care (ATC), you can get your prescriptions filled at most pharmacies. You will need the written prescription from your assigned ATC doctor and your current ATC ID card. ATC allows you to fill a 30-day supply of your medications. That may cover a one-time prescription such as an antibiotic, OR an entire 30-day supply of medication if it is something you take every day.

All medications in this guide have been approved by the Food & Drug Administration and were chosen by a committee of doctors and pharmacists. The ATC Medication Guide may be subject to change without notice. Due to space limitations, all covered medications may not be listed in this Guide. For further information or questions please call 708-531-0680.

ATC has a mandatory generic medication policy. ATC will only pay for a brand name medication if a generic equivalent is not available, OR if your assigned doctor says there is a medical reason you are unable to take a generic medication.

Tier 1: Generic Medications

(listed in plain type in the Guide)

Generic medications are the least expensive. You will be charged a \$15 co-payment for generic medications.

All diabetic medications and testing supplies will have a \$15 co-payment.

Tier 2: Preferred Brand Name Medications

(listed in bold type in the Guide)

Your ATC physician may require you to take a preferred brand name medication instead of a generic medication. You will be charged a \$30 co-payment for preferred brand name medications.

Tier 3: Non-Preferred Brand Name Medications

(not listed in the Guide)

Your ATC physician may require you to take a non-preferred brand name medication. You will be charged a \$40 co-payment for non-preferred brand name medications.

Share this Guide with your ATC doctor to select cost-effective medications needed to treat your condition and maintain your health. *Non-preferred brand name medications are NOT listed in this Guide.*

MORE WAYS TO SAVE MONEY ON YOUR MEDICATIONS

The Rx Outreach and Walmart/Sam's Club pharmacy programs are cost-saving options outside of the ATC pharmacy benefit with generic medications as low as \$4, a 60% savings! If you use one of these cost-saving programs, DO NOT use your ATC card. Everyone is entitled to these cost-savings.

Guía de Medicamentos

Con Access to Care (ATC), puede surtir sus recetas en la mayoría de las farmacias. Necesitará la receta escrita de su médico asignado de ATC y su tarjeta de identificación actual. ATC le permite llenar un suministro de 30 días de sus medicamentos. Eso puede cubrir una receta única, como un antibiótico, O un suministro completo de medicamentos para 30 días si es algo que toma todos los días.

Todos los medicamentos en esta guía han sido aprobados por la Administración de Alimentos y Medicamentos y fueron elegidos por un comité de médicos y farmacéuticos. La Guía de Medicamentos ATC puede estar sujeta a cambios sin previo aviso. Debido a limitaciones de espacio, no todos los medicamentos cubiertos se pueden enumerar en esta Guía. Para más información o preguntas, llame al (708) 531-0680.

ATC tiene una póliza obligatoria de medicamentos genéricos. ATC solo pagará un medicamento de marca si no hay un equivalente genérico disponible, O si su médico asignado le dice que hay un motivo médico por el que no puede tomar un medicamento genérico.

Nivel 1: Medicamentos Genéricos

(en letra simple en la Guía)

Los medicamentos genéricos son los menos costosos. Se le cobrará un copago de \$15 por medicamentos genéricos. Todos los medicamentos para la diabetes y los suministros para pruebas tendrán un copago de \$15.

Nivel 2: Medicamentos de Nombre de Marca Preferida

(en letras mayúsculas oscuras en la Guía)

Su médico de ATC puede exigirle que tome un medicamento de marca preferida en lugar de un medicamento genérico. Se le cobrará un copago de \$30 por los medicamentos de marca preferida.

Nivel 3: Medicamentos de Marca no Preferida

(no incluido en la Guía)

Su médico ATC puede exigirle que tome un medicamento de marca no preferida. Se le cobrará un copago de \$40 por medicamentos de marca no preferida.

Comparta esta guía con su médico de ATC para seleccionar los medicamentos menos costosos para tratar su condición y mantener su salud. *Los medicamentos de marca no preferida NO están anotados en esta Guía.*

MÁS MANERAS DE AHORRAR DINERO EN SUS MEDICAMENTOS

Los programas de farmacia Rx Outreach y Walmart/Sam's Club son opciones de ahorro fuera del beneficio de farmacia ATC con medicamentos genéricos tan bajos como \$4, ¡un ahorro del 60%! Si usa uno de estos programas de ahorro de costos, NO use su tarjeta ATC. Todos tienen derecho a estos ahorros.
